WORLD'S #1
NUDE
ART
MAGAZINE

Welcome Volonians to the 25th issue of VOLO Magazine.

In this world of extreme photoshop we are proud to present Yasmina, a completely natural beauty on our cover devoid of any photo manipulations. This 18 year old French Polynesian is pretty much as close to perfection as we will get, when it comes to the female population in this area. The shot is by none other than one of VOLO Magazine's favorite photographers Marcus Armelle Kerine. This is Marcus' first VOLO cover and I want to congratulate him for that. I am sure that we will be seeing his work on many future covers of VOLO and other magazines.

This issue is all about shooting in natural light and bringing out the intensity of each models character through the images (and videos) presented on these pages. This issue brings the biggest library of videos we have recently had in one issue and all these videos will be available to our faithful VOLODaily.com 'All-Access Subscribers' - Free of Charge!

We need your help! *If you truly love our magazine and the continuous flow of content we bring to you through our social channels and websites (www.volostars.com, www.volomagazine.com, www.volodaily.com) - then help us spread the word and refer your friends to become subscribers. A simple \$5.99 a month makes it possible for us to produce, layout, publish and market this magazine.*

*Photographers, if you have received an invite to be part of **THE LIST** in 2015, you need to respond by the 25th of May. Please let us know your approval or reasons for not wanting to be part of the most prestigious list in photography... We want your feedback.*

Enjoy the issue.

“I wanted to try out modeling when I was a teenager, but I lacked the confidence.”

“But as I progressed through my years in college, I grew more confident and after my graduation, I decided to give it a shot.”

[@msteener](#)

"I have been fairly selective with whom I work with, and I'm fortunate enough to have met so many good people who provided me help and guidance along the way."

"Coming from a fairly conservative culture, the modeling experience has been liberating, and I enjoy the opportunities to portray different roles and personas in front of the camera."

MELISSA

“VOLO Magazine is the first magazine I appeared fully nude on. The aesthetic beauty of this magazine makes me feel confident that I will be portrayed as nothing less than a goddess”

[@melissalori](#)

“This morning shoot is the most BARE shoot I have ever done... Shankha woke me up at 5 am and said lets go for a drive. No makeup and just a few moments to get my hair done and we were off and walking in the golden hills. It was liberating and exhilarating at the same time. I can't wait to visit the VOLO team in California again and create some more incredible and natural images.

This is it guys, the unedited, unadulterated, REAL me!”

*“Hi VOLO people, my name is Yasmina.
I am very excited to be on the pages of VOLO!!!*

*I am a 20 year old model living in France but originally I am from
Martinique in the French Caribbean, where Marcus shot me for this
VOLO set”*

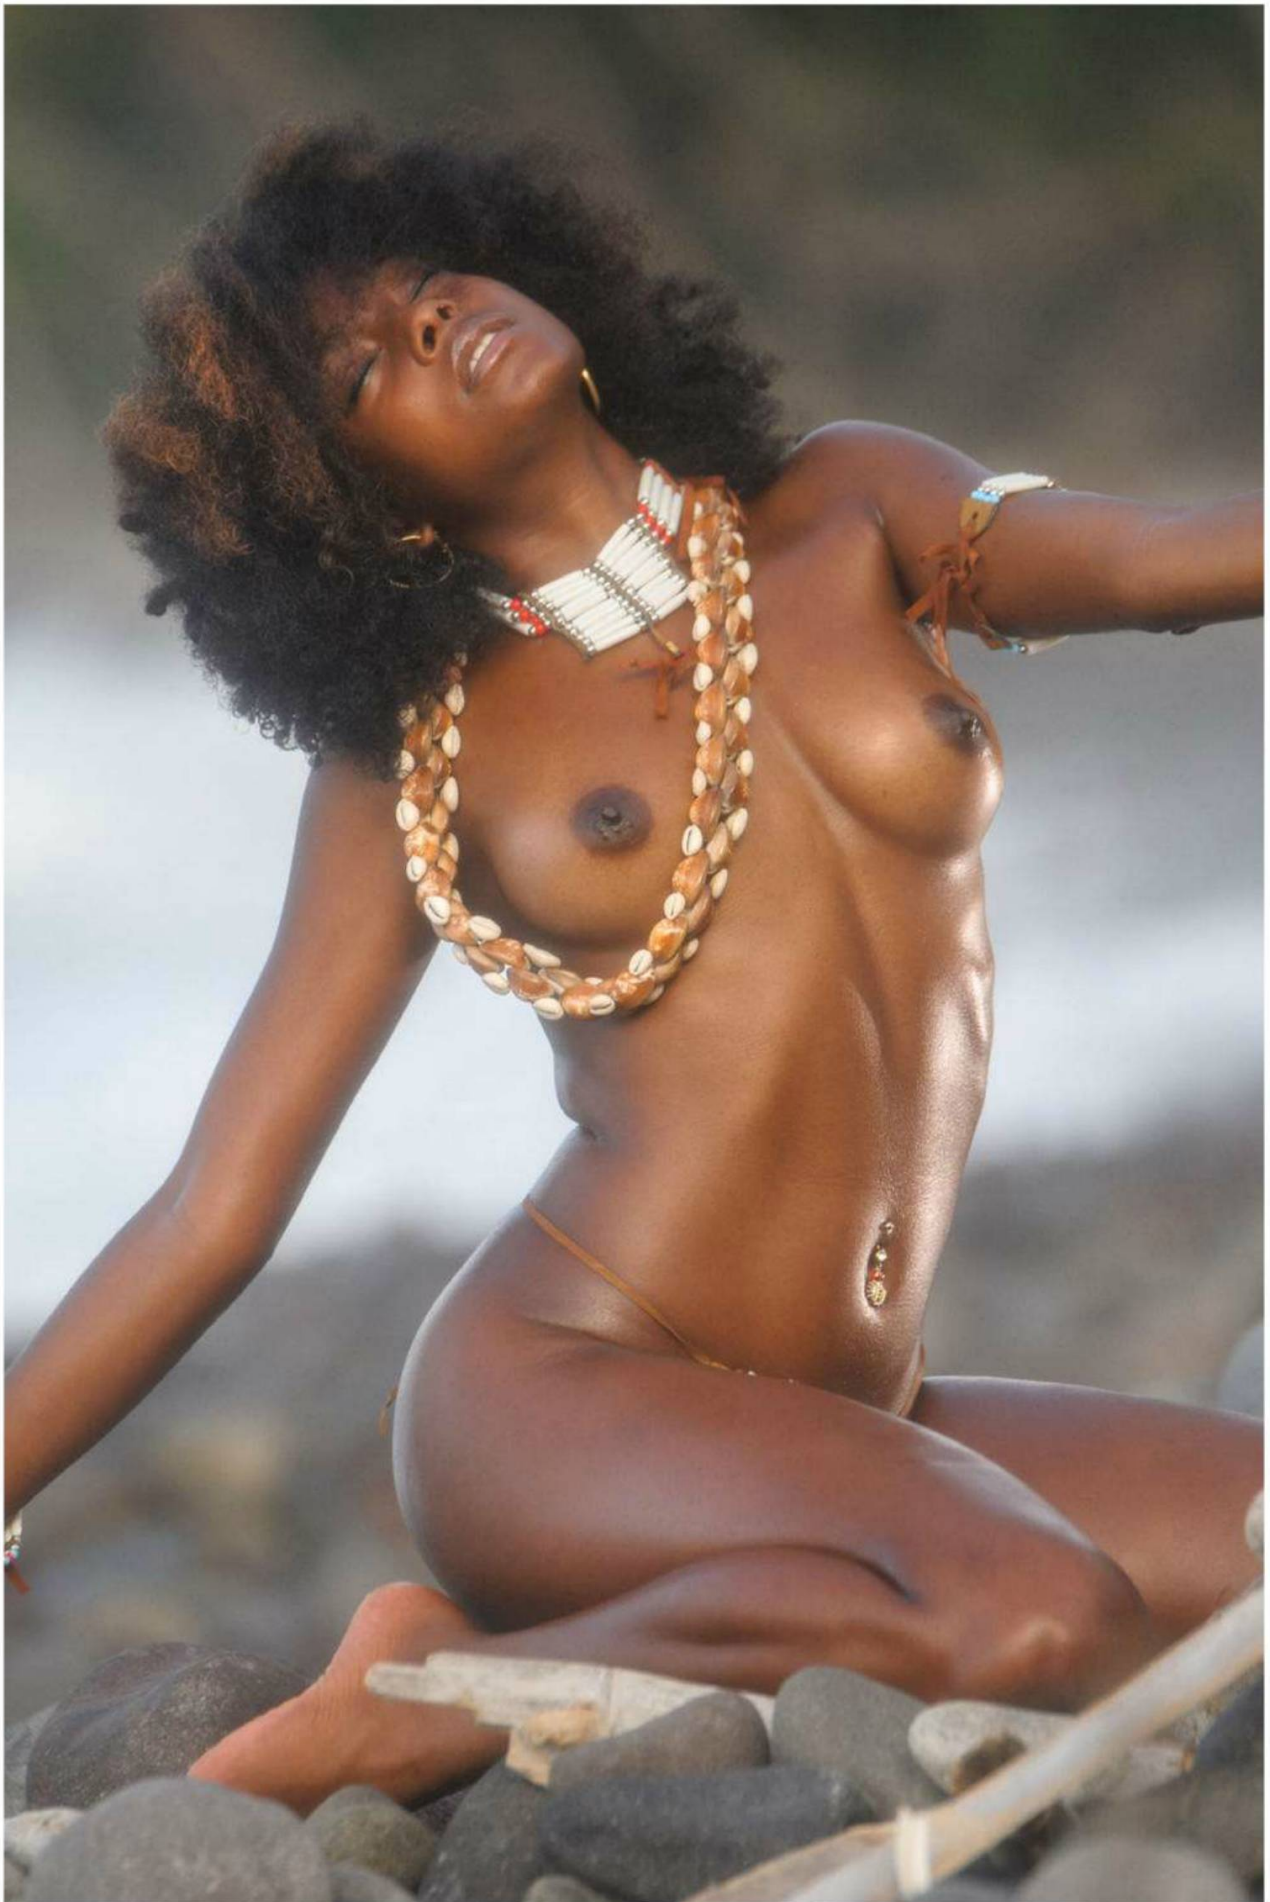

“The island where I come from is very conservative and nudity is almost seen as a crime... Something disrespectful for women. But I do not see it that way at all... In my opinion the body of a woman belongs only to her and its respect and dignity cannot be measured in a few square centimeters of clothing.”

I read it somewhere 'All humans are naked under their clothes' and to hide something as beautiful as the female body, something that inspires such beauty and sensuality is the true crime."

As beautiful as it is on its own, the female body is even more beautiful when it's in harmony with nature. This set by Marcus makes me feel like I am a true child of mother Earth, perfectly in tune with her"

A warm-toned photograph of a landscape. In the foreground, there is dark, rocky soil. In the middle ground, several olive trees are visible, some in focus and others blurred. The background shows a hilly landscape with more trees under a soft, hazy sky. The overall color palette is dominated by warm browns, tans, and muted greens.

INNA

MODEL

Six years ago **Keira** finished up a graduate degree in music, stripped off her clothing, jumped in her car, and drove around the country seeking out artists and photographers who saw the human form as an important instrument and subject for their art.

For Keira, art is integral to life and she dabbles in the art of photography, music, food and writing when not modeling. She is the artful nomad, primarily roaming the United States as a nude model, but has also traveled to Europe and Australia for shoots, and taken her own yearlong journey through South America.

She has a website where all pertinent links about her are found at:

Inna B-G is a full-time freelance model, originally from Eastern Europe. In 2006 when she moved to the US in her teens she started doing modeling work mostly as a hobby and self-expression. Later on it has become her full-time job. Primarily Inna's genres are fine art nudes, glamour, fetish and erotica. Also Inna works a lot with artists for painting, drawing and sculpture pieces. In 2014 Inna started doing video work as well.

She has been shot for music videos and started trying herself as an actress. Apart from modeling Inna got her degree in Business Administration field, graduated from two musical schools in her native country; she is bilingual, appreciates beauty in all of its variety and bakes delicious cakes.

PHOTOGRAPHER

New York City based photographer, **Daniel Brustein**, finds his inspiration not only from the city in which he resides, but through the people whom inhabit it. For Daniel, photography is all about collaboration and community. As a child, Daniel grew up in the world of the theater. And like the theater, he believes photographic scenes need to be created, lighting needs to be found or shaped. And the actors in this community are the models.

The photographer may set the scene, but, for Daniel, the models, of course, bring the emotion and the impact. Preferring to photograph artistic nude, Daniel is continually mesmerized by the infinite permutations of light against skin, of the stories which lie behind the eyes of an over the shoulder glance. But his real joy comes from the collaboration with all the contributing artists who help bring his photographs to life. And in the end, if all goes as planned, a moment in beauty may be captured, which is his ultimate reward.
